

CONNECTING STUDENTS TO INTERNSHIPS

“My Jindal School education definitely gave the proper, strong foundation I needed to be effective in my position.”

“The most valuable thing that I took away from my internship was how much I learned about myself. It helped me fine tune my work ethic and realize how well I work in different situations and with different people. My UT Dallas education definitely gave the proper, strong foundation I needed to be effective in my position. From little things to understanding business jargon to being able to dice data in Excel, the knowledge I’ve brought over has been immensely helpful.”
